

Intro Astro edition notes.

This text is written for a three-semester introductory Astronomy sequence taught at Whitman College.

You are welcome to use it as long as you respect the Creative Commons designation.

Except for fixing typos, changes get made during northern hemisphere summers.

Why “Intro Astro”? Because more formal words such as Introductory and Astronomy and Astrophysics and Universe, etc., etc., are already well used.

If you use it, if you find errors, if you have suggestions, feel free to email me:
