

## Math 124 assignments for Week 7

The first few problems in each section are done online, so that you can get instant feedback. Use the “Read Online” version of the textbook to activate each question. The abbreviation “APC” is for “Active Prelude to Calculus”, and “AC” is for the “Active Calculus” text.

Homework this week will assigned, as below, but not turned in. Friday, Oct 20th will be the exam, so be sure that you try these problems out before then. I will also be passing out a review sheet.

- Wed, Oct 11: (APC) 4.1: 1-3.
- Fri, Oct 13: (APC) 4.2: 1-6, 8.
- Mon, Oct 16: (APC) 4.3: 1-6. Section 4.4: 4, 5
- Tue, Oct 17: (APC) 4.5: 1-3, 4.
