

Thursday Quiz, Part I

I'd like to get your comments on how we might change the class to be more beneficial for you. Tell me your thoughts on how things are going; Do you think your quiz/exam scores are a good reflection of how much you study the material (if not, what kinds of changes could I make)? Are the comments I make on your exam useful to you? Do you like the on-line material? Are the lectures useful, or would you like to see other things (like group work)?

This is not mandatory, but I would appreciate your comments. I will be collecting these in an envelope before the quiz. If you're in attendance, I will mark you down as having completed the survey.

This is meant to be anonymous- you can use your name if there are specific things you want me to address to you by email; otherwise, I'll be compiling your comments together and we'll have a chance on Monday to discuss them in class. Check the box below if you would prefer NOT to have your comments included in the compilation for class.
