

M125, Calculus I

Homework Assignments to Exam I

GENERAL NOTE: The appendices provide a very good review of basic pre-calculus and trigonometry. If you need help, start there. There are also texts available in the library (search for “Just in Time Algebra and Trigonometry”).

Please be sure you read each section carefully and annotate any questions you have. Stop by my office hours if you still have questions after we’ve looked at the material in class.
