

GROUP: \_\_\_\_\_

Fall 2006

Ma235–Calculus Laboratory I

***Checklist for Grading: The Solar System***

**Grading Criteria:**

There are 25 points total.  
Each item is worth 5 points total.

- (1) \_\_\_\_\_ Does the paper lead the reader through a narrative that describes the model and the questions the model will help answer?
- (2) \_\_\_\_\_ Do you use figures to help explain the model and the questions the model will help answer? Do the captions explain the pictures?
- (3) \_\_\_\_\_ Spelling, grammar, punctuation and typesetting.
- (4) \_\_\_\_\_ Have you explored all the questions asked in the lab, and incorporated answers appropriately.
- (5) \_\_\_\_\_ Is the mathematics correct and complete? Have you incorporated enough information so that the reader could duplicate your results?
