

Group: _____

Total Score: _____ out of _____ \approx _____ %

LAB WRITE-UP CHECKLIST

This list will be used to grade your assignment. Please use this checklist as a guide while writing this assignment.

Does this paper (3 pts each):

1. in the introduction, clearly (re)state the problems to be solved and provide an outline explaining how the problems will be approached? _____
2. in each section, state the purpose of the section? Does each section accomplish its purpose? _____
3. include proper spelling, grammar, and punctuation, correct use of L^AT_EX and mathematical writing style in general? _____
4. use appropriate representations of the mathematics involved (e.g. tables, graphs, figures) and are those representations correctly labeled and captioned? (if applicable) _____
5. cite unusual or significant formulas and results obtained from outside sources and verify hypotheses of theorems used? _____

In this paper (6 pts each):

1. is the mathematics clearly explained? _____
2. is the mathematics correct and complete? _____

Is there a substantive extension topic? (3 points):

1. Above and beyond. _____
