

Math 244 Spring 2014

Syllabus

INSTRUCTOR: Dr. Hundley

OFFICE: Olin 234

OFFICE HOURS: Tues, Thur, Fri at 11AM.

If you can't make these times, feel free to schedule a different time. You may also stop by anytime my office door is open- I will normally be around on Tuesday and Thursday afternoons.

OFFICE PHONE: 527-5151

EMAIL: hundledr@whitman.edu

CLASS WEBSITE: <http://www.whitman.edu/~hundledr/courses/M244.html>

1. COURSE INFO: Math 244: T Th F at 10AM.
2. TEXT: Elementary Differential Equations (with or without Boundary Value Problems) 9th Edition. Boyce and DiPrima

At the end of this course, you will understand how differential equations are used to model some particular physical phenomena. You will understand what it means to *solve* a differential equation using algebraic methods and graphical methods, and what it means to analyze the behavior of said solutions.

3. **Calculators:** If calculators are allowed on an examination (to be announced prior to each), you may use graphical, programmable calculators, but you may NOT use calculators that can perform symbolic manipulation. You only need a cheap scientific calculator that can compute trigonometric functions.
4. Grading Criteria.

- Exams. There will be three exams (**Tues, Feb 18, Fri, Mar 14** (the Friday before Spring Break) and **Fri, Apr 25**. The exam dates will not change, so make your plans accordingly. The last exam will be the Final Exam, which we will take at the published time. Exams will make up 80% of the overall class grade (each is 20% of the overall grade).
- Quizzes will make up 20% of the overall grade. There are 10 total, and you may drop your two lowest scores- You are allowed these drops in case you need to miss class, so don't use these drops unless you need them. *NOTE:* Make-up quizzes are allowed ONLY when your absence is college authorized (oversleeping for example, is not college authorized).
- Homework: The homework problems form the basis for the weekly quiz. It is expected that you will spend some time thinking about and completing the homework problems! Do not procrastinate- There is time during the beginning of

each class meeting to discuss the previous day's homework assignment- This is an excellent time to ask questions!

GRADING: Grading is done on a standard scale:

$A = 92 - 100$ $A- = 90 - 91$ $B+ = 88 - 89$ $B = 82 - 87$ $B- = 80 - 81$
 $C+ = 78 - 79$ $C = 72 - 78$ $C- = 70 - 71$ $D = 60 - 69$ $F = 59$ and below

5. Help! I encourage you to come see me. If you can't make it during office hours, either email me if you have short questions, or make an appointment.
6. Academic Honesty. Academic standards will be *strictly* adhered to as outlined in the College's policies. This means that cheating will not be tolerated. Looking at another student's exam or quiz (whether or not you mean to copy answers) while taking it will be considered cheating. *Please don't test this policy!*
7. If you are a student with a documented disability who will need accommodations in this course, please meet with the Academic Resource Center for assistance in developing a plan to address your academic needs.

Additionally, I will be relying on you to contact me in advance of each session where you will need accommodations. Please do this early enough so that reservations can be made, where appropriate.

8. **Please be courteous to your fellow students:**

- Class begins exactly on the hour, and the first 5-10 minutes are the most important, so please be on time (also see the 5% of your grade in the previous section).
- Please silence your cell phones, and store them during quizzes and examinations.
- No laptop computers, ipads or cell phones during class, please! They tend to be very distracting!

9. **Be sure to check your Whitman email regularly.** I will occasionally send out important information about the class via email.
