## Example 1, Section 3.5

(Exercise 2, p. 75)
During each 4 hour period, the Smalltown police force requires the following number of on-duty police officers:

| Midnight -4AM: | 8 | Noon-4PM: | 6 |
| :--- | :--- | :--- | :--- |
| 4AM-8AM: | 7 | 4PM-8PM: | 5 |
| 8AM-Noon: | 6 | 8PM-Midnight: | 4 |

Each officer works two consecutive four hour shifts. Formulate an LP problem that can be used to minize the number of officers needed to meet Smalltown's daily requirement.
