- Change to a supply/demand pair.

## Change to a cost for a NBV

- If  $c_{ij}$  changes to  $c_{ij} + \Delta$ , then  $u_i, v_j$

## Change to a cost for a NBV

- If  $c_{ij}$  changes to  $c_{ij} + \Delta$ , then  $u_i, v_j$  will not change (we used BVs for those).
